

CARTRIDGE FILTERS

HIGH FILTERING EFFICIENCY

The constant technological evolution of our products is a guarantee of quality, reliability and continuity of a high level service.

The CORAL production is intended for multiple industries that are:

WELDING - SANDBLASTING - WOOD-WORKING - FOOD-STUFFS - PLASTICS - ELECTRONICS - PHARMACEUTICS - METAL AND MECHANICAL

The production range covers products of numerous dimensions from 100 diameter to 660 mm and lengths up to 2000 mm with very high filtration surfaces if compared to the traditional filters. CORAL only uses first class filtration media: polyester, cellulose, polypropylene BIA certified (USG and USG,C).

Simple installation, accurate construction, low consumption of compressed air required for cleaning and competitive price are the most obvious features of the cartridge filtering elements that we manufacture. The CORAL products are commercialised throughout the world via a qualified distribution network.

Production program

Portable dust collectors - Cartridge filters - Silo & boilers - Filtering extraction units for metal, chemicals, electronic, textile, food and woodworking industry - Soldering fumes filters - Source fume capture articulated arms - Spray booths - Soundproofed cabins & panels - Pressurized cabins & dust free rooms - Fans - Soundproofed boxes for fans - Ductwork and accessories - Smoke and vapour filters - Dryers: conventional & heat pump - Hose reels with suction fans for automotive industry.
